7. Items from 5-gallon can before removal of packaging material.
8. Items after packaging materials were removed. All items in very good condition.
9. Items which were in bamboo tube. Bamboo tube was rotted away. Photo taken at cache site.
10. Items before ~~packaging~~ removal of packaging. All items were in very good shape.
11. Radio after recovery.
12. Radio before removal of packaging.
13. Radio after removal of packaging.

RESULTS:

1. The items in this report have been cached for one year. This recovery did not have the white ants found in the 6-month recovery. Items all were in very good condition and ready to be used.
2. The Japanese rubber is still giving good protection to all items thus far recovered. There are some signs of cracking beginning to show on the outside of packages that have been in contact with the soil.
3. As a result of tests in this area and other areas in the Far East, the materials packaged for the caching operation for were all placed 25X1
in the stainless steel burial containers. In the case of weapons, ammunition, demolitions and some of the other items, they were wrapped in foil and dipped in plastic. This enabled us to get four M-1 rifles, 2 carbines, 2 machets, 1-45 calibre pistol and cleaning material, 146 rounds 30 cal. ammo, 50 rounds carbine ammo, 3-45 calibre magazines, 6 carbine magazines, and four SMG M-3 magazines.
